Re: Consideration to change the existing Parking Restriction outside 29- 31 Moorong Street Wagga Wagga

Sir,

I request that consideration be given to change the existing parking restriction outside 29-31 Moorong Street Wagga. This being the street address of my business Riverina Crane Services.

Currently there is a restriction outside of the business of 'No Parking – Vehicles Under 4.6T Accepted – All Days'.

I seek to have his changed to 'Unrestricted 30-minute Parking' or '30-minute Parking for Heavy Vehicles greater than 10m in length' ideally between the two driveways that access my business.

As a business that is involved in the Heavy Vehicle industry, we regularly accept trucks drivers from other trucking companies outside of Wagga to utilise our facilities as an interim rest stop. This involves;

- the use of the Toilets located at 29-31 Moorong Street,
- The Supply of water for the Washing down of Windscreens and filling of tanks as required
- to undertake a 'Hot Swap' for Long Haul B Double Drivers
- the ability for Long Haul drivers to secure their private vehicle in my yard whilst on the road

This service is provided free of charge and out of courtesy to the drivers who spend many hours on the road.

Much of this activity happens out of regular business hours, with the occasional driver accessing this service during normal business hours.

The current Parking Restriction does not permit these activities to occur and was highlighted recently when a WWCC Ranger challenged 2 drivers who were undertaking a 'Hot Swap' on the Sydney to Mildura run, that they were in breach of the local parking regulations

The requested change to the Parking would not impact any business in the immediate area as Riverina Crane Services or its interests occupy the businesses or land 100m either side of the requested parking area.

Seeking favourable consideration

Steven Mullins

Director
