

## Attachment 1 – Playgrounds, canopy and shade data

In 2019 Council engaged environmental consultations ArborCarbon to acquire, process and deliver remotely sensed data to determine the current canopy cover over the Wagga Wagga Urban Area. (The data did not include any of the villages).

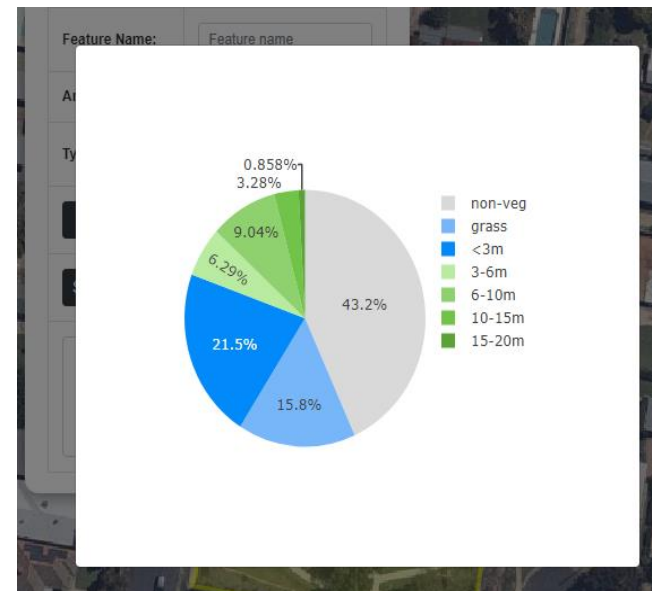

Tree canopy means the branches, leaves or foliage from vegetation exceeding 3 metres. When measuring the total canopy only percentages for foliage 3 metres or higher are added together. The canopy data included in this attachment is the total canopy for the park land.

Example of ArborCarbon mapping

Example measure park area and select VegStrata statistics

Example pie chart showing percentages of vegetation and canopy

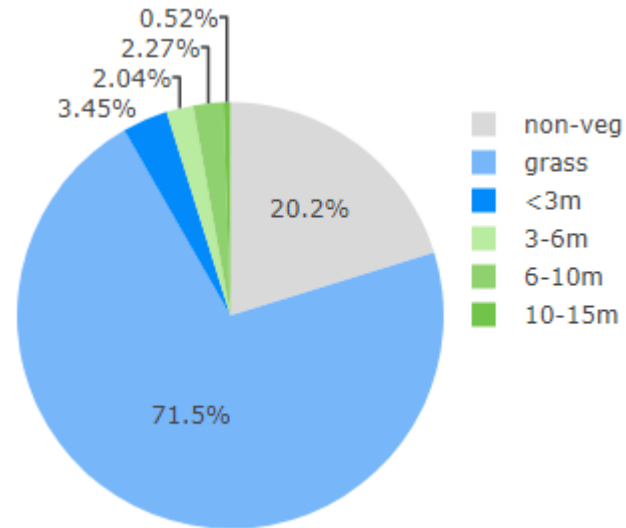

## Ashmont/Glenfield Park/San Isidore

### Ashmont Oval Playground

Lae Avenue, Ashmont

<b>Hierarchy</b>	Local Minor
<b>Amenities (Toilets)</b>	Yes, only available when booked
<b>Off-street parking</b>	Yes
<b>Fenced</b>	No
<b>Accessible</b>	No
<b>BBQ</b>	No
<b>Water</b>	No
<b>Shade Type</b>	Minimal natural shade from trees

### Total Tree Canopy for Park

Total Canopy: **4.83%**

Area of playground: **210.3m**

### Total Shade

Estimated percentage of shade over playground: **5%**

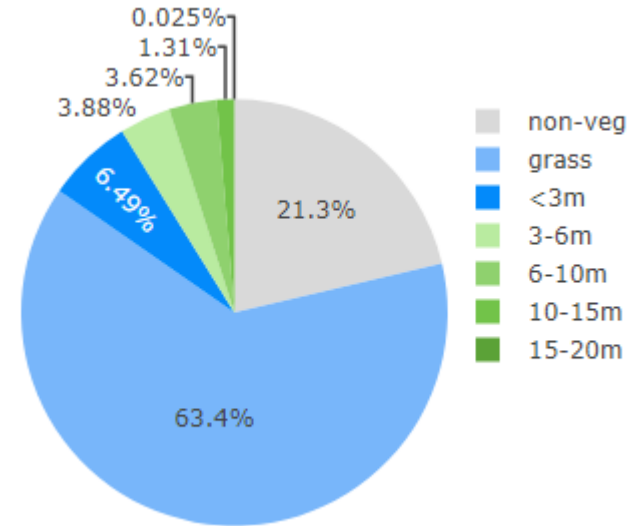

Above Councils 80% benchmark: **No**

## Crisp Drive Playground

Ashmont

<b>Hierarchy</b>	Local Minor
<b>Amenities (Toilets)</b>	No
<b>Off-street parking</b>	No
<b>Fenced</b>	No
<b>Accessible</b>	No
<b>BBQ</b>	No
<b>Water</b>	No
<b>Shade Type</b>	No shade over playground, natural shade over table and chairs

### Total Tree Canopy for Park

Total Canopy: **8.83%**

Area of playground: **297.9m**
