That the Floodplain Risk Management Advisory Committee receive and note the draft report and recommends to the Council that it receive the report and places it on Public Exhibition.

The committee notes its preliminary view is to recommend a combined approach that is staged and includes:

- a. Upgrading the existing North Wagga Levee system (Stage 1 of L4B - 5% AEP (1 in 20)) and offering Voluntary House Raising and Purchase subject to risk reduction and cost effectiveness**
- b. Increasing the road heights and bridges along Hampden Ave to provide a safe evacuation route (Stage 2 of Option L4B) subject to funding**
