Hi Emma,

Please find enclosed remaining photos for boundary/location shots of proposed shed site.

Further to this, the shed is specifically proposed to be placed to the back right side of the property with the front of the shed to have a west facing aspect. Due to the slope and drainage run off to the north/east of the block, positioning the shed as shown in the the site plan allows for ease of water run off on the property.

A copy of the site sketch plans (showing trees, water tank and scalable shed size) along with the shed floor plans (including proposed shower and toilet amenities) will be dropped into the council office - if you require electronic copies of these documents let me know.

Regards,

Dan
