RP-2 PROPOSED INTERSECTION - BYRNES ROAD BOMEN

Recommendation

That Council approve the installation of regulatory traffic facilities on Byrnes Road, Bomen for Development Application Number 13/0219.02 as detailed on MJM Project Number 120341 Sheet C7 Issue E dated August 2022.

COMMENT

- Contact MJM and seek confirmation that the embankment on the eastern side of Byrnes road would be removed. The letter states "it is anticipated"
- TfNSW requested that the SISD be re-assessed at a speed of 90km/h due to the location and speed of vehicles likely travelling in excess of the 80km/h speed limit
- TfNSW stated that due to the intersection being a terminating street, the GIVE WAY sign was not required. It was agreed by the committee that Council could approve installation of a GIVE WAY sign over and above the standard in the interests of improved visibility and safety

RP-4 KINCAID STREET - CENTRE OF ROAD PARKING

Officer Recommendation

That the Local Traffic Committee endorse the installation of regulatory signs for the centre-of-road parking arrangement in Kincaid Street between Fitzmaurice Street and Trail Street as detailed on Council Plan Registration C1970 Sheet Number 004 Issue O dated 3 August 2022.

COMMENT

- Not supported by TfNSW and Police due to not meeting AS 2890.5. Referenced previous LTC recommendation from November 2017. Recommended re-investigate configuration that meets AS 2890.5 E.G. Centre of road angled parking (45 degrees) with bump stops, one way in and out
- Committee noted already approved by Council in March 2020 and although the current recommendation was to endorse signs and road markings, TfNSW and Police had not been formerly notified of Council's resolution in 2020 which was contrary to the LTC recommendation of 2017
- Committee supported centre of road parking but not in its current form. An alternate recommendation would be considered after investigation and presentation of an alternative concept that meets the required standard
