## Rates & Annual Charges

The Independent Pricing & Regulatory Tribunal (IPART) announced a 2.6% rate pegging limited increase for 2020/21 in September 2019. Rates are levied against properties in accordance with their classification as defined in the Local Government Act 1993. Properties are classified as Residential, Business or Farmland based on their dominant use. The calculation of the rateable amount for each property is determined by multiplying the valuation by the Ad valorem amount. Where this calculation results in an amount less than the Minimum Rate, the Minimum Rate applies.

The NSW Land & Property Management Authority (Valuer General's office) completed a revaluation of all rateable properties in the Local Government area in 2019. This was undertaken as part of a three-year revaluation cycle.

Rate Type	Category	Sub-Category	Minimum Rate	Ad Valorem Amount	Rate Yield	% Total
Ordinary	Residential	City and Suburbs	\$716.00	0.0075359	\$25,750,401	57.32%

<b>TOTAL</b>					<b>\$44,923,437</b>	<b>100.00%</b>

The rate categories and sub-categories for the purposes of the levying of the 2020/21 rates are as follows:

### **Wagga Wagga and Forest Hill**

Residential – City and Suburbs  
Business – City and Suburbs

### **Villages: San Isidore, Gumly Gumly, Tarcutta, Humula, Uranquinty, Mangoplah, Oura, Currawarna, Ladysmith, Galore, Collingullie and North Wagga**

**Residential – Other** is defined as land which is:

- a) Is not less than two (2) hectares and not more than 40 hectares in area
- b) Is either:
  - i. Not zoned or otherwise designated for use under an environmental planning instrument
  - ii. Zoned or otherwise designated for use under such an environmental planning instrument for non-urban purpose
- c) Does not have a significant and substantial commercial purpose or character

Excludes: Business – City and Suburbs land, rated in accordance with the provisions of Section 518 of the Local Government Act 1993, and also farmland, rated in accordance with the provisions of Section 515 of the Local Government Act, within such centres of population.

## Categorisation of land for purposes of ordinary rates

In accordance with Section 514 of the Local Government Act 1993, Council must declare each parcel of rateable land within the Local Government Area to be within one of the following categories, before making an ordinary rate:

- Farmland
- Residential
- Business

Farmland rates will be levied on all rateable land, which, in Council's opinion, qualifies as "Farmland" as defined in Section 515 of the Local Government Act 1993.

The categorisation of land for the purposes of ordinary rates as per the Local Government Act 1993 is as follows:

### Section 515 – Farmland

- (1) Land is to be categorised as "**farmland**" if it is a parcel of rateable land valued as one assessment and its dominant use is for farming (that is, the business or industry of grazing, animal feedlots, dairying, pig-farming, poultry farming, viticulture, orcharding, bee-keeping, horticulture, vegetable growing, the growing of crops of any kind, forestry or aquaculture within the meaning of the Fisheries Management Act 1994, or any combination of those businesses or industries) which:
  - (a) has a significant and substantial commercial purpose or character, and
  - (b) is engaged in for the purpose of profit on a continuous or repetitive basis (whether or not a profit is actually made).
- (2) Land is not to be categorised as farmland if it is rural residential land.
- (3) The regulations may prescribe circumstances in which land is or is not to be categorised as farmland.

### Section 516 – Residential

- (1) Land is to be categorised as "**residential**" if it is a parcel of rateable land valued as one assessment and:
  - (a) its dominant use is for residential accommodation (otherwise than as a hotel, motel, guest-house, backpacker hostel or nursing home or any other form of residential accommodation (not being a boarding house or a lodging house) prescribed by the regulations), or
  - (b) in the case of vacant land, it is zoned or otherwise designated for use under an environmental planning instrument (with or without development consent) for residential purposes, or
  - (c) it is rural residential land.
- (1A) For the purposes of this section, a "**boarding house**" or a "**lodging house**" means a building wholly or partly let as lodging in which each letting provides the tariff-paying occupant with a principal place of residence and in which:
  - (a) each tariff charged does not exceed the maximum tariff for boarding houses or lodging houses for the time being determined by the Minister by order published in the Gazette for the purposes of this subsection, and
  - (b) there are at least 3 tariff-paying occupants who have resided there for the last 3 consecutive months, or any period totaling 3 months during the last year, and includes a vacant building that was so let immediately before becoming vacant, but does not include a residential flat building, licensed premises, a private hotel, a building containing serviced apartments or a backpacker hostel or other tourist establishment.
- (2) The regulations may prescribe circumstances in which land is or is not to be categorised as residential.

### Section 518 – Business

Land is to be categorised as "**business**" if it cannot be categorised as farmland, residential or mining.

## Special Rate Variation (SRV)

### To fund upgrade to levee system

Wagga Wagga City Council was successful in applying to IPART for a Special Rate Variation (SRV) of 5.63% for 2016/17 retained for a 5-year period to raise \$7.75M strictly for the purpose of funding its one-third share of an upgrade to its existing levee system, which includes the Main City levee and the North Wagga levee at an estimated cost of \$23.3M. At the end of the five (5) year SRV period the Council's rates will be adjusted down to the rates path which would be applicable if the SRV had not been applied.

This upgrade will bring the Main City levee up to a 1 in 100-year level of flood protection at an estimated cost of \$14.9M, and the North Wagga levee up to a 1 in 20-year level of flood protection at an estimated cost of \$8.4M.

The SRV rate (levee upgrade component) has a flat rate, no minimum charge to spread the cost of the levee upgrade on the basis of land value.

In order to remove some of the burden on local farmers in the Wagga Wagga Local Government Area who have suffered significant financial hardship due to drought conditions over the past decade, Wagga Wagga City Council elected to apply the special variation (levee upgrade component) percentage increase for the farmland category at 50%, with the remaining categories adjusted to compensate.

The Special Rate levy structure & rate in the dollars are noted in the table below:

Rates Type	Category	Sub Category	Ad valorem Amount	Rate Yield	% Total
SRV – Levee Upgrade	Residential	City and Suburbs	0.0003089	\$1,004,351	60.41%

## Sewer Charges

With increasing demands on the limited water resources of NSW, it is vital that these resources are managed in an efficient and sustainable manner. Best-practice management is essential for efficient and sustainable management of water resources and the environment. It enables a Local Water Utility (LWU) to achieve sustainable water supply and sewerage businesses and comply with the Australian Government's National Competition Policy (NCP) and National Water Initiative (NWI). LWUs that achieve the outcomes required by these guidelines will have demonstrated best-practice management of these businesses. Best-practice management involves a triple bottom line focus that provides a balanced view of the long-term sustainability of NSW water utilities. Triple bottom line accounting (social, environmental and economic) involves consideration of a LWU's business plan together with its social and environmental management practices.

Best-practice management of water supply and sewerage involves the following six criteria:

- Strategic Business Planning
- Pricing (including Developer Charges, Liquid Trade Waste Policy and Approvals)
- Water Conservation
- Drought Management
- Performance Reporting
- Integrated Water Cycle Management

Best-practice sewerage pricing involves a uniform annual sewerage bill for residential customers. For Non-Residential customers an appropriate sewer usage charge is required for the estimated volume discharged to the sewerage system, together with an access charge based on the water meter size that is applied for each and every meter connection (based on the capacity requirements that their loads place on the system relative to residential customers).

### Residential Properties (Developed)

The annual residential sewer charge is \$560.00 per residence. Multiple residence properties are charged \$560.00 per residence.

### Vacant Land

Vacant land (including Residential and Non-Residential) which can be connected to the sewer system will be charged an annual sewer charge of \$560.00.

### Non-Residential – Two Part Tariff Best Practice Sewer Charging

From 1 July 2012, Wagga Wagga City Council introduced two-part tariff sewer charging for Non-Residential customers. Non-Residential customers include (but not limited to) commercial, industrial, schools, small community properties and hospitals.

The Non-Residential Sewer Charge comprises of an access charge based on the water meter size of each connection on the property (see schedule below) and a usage charge.

Each property is assigned a discharge factor that refers to the property's estimated volume discharged to sewer. The Non-Residential usage charge is calculated by multiplying the total water usage (as measured by the water meter) by the applicable discharge factor. This value is then multiplied by the current usage charge of \$2.35 per kilolitre.

In accordance with best practice non-residential sewer guidelines, the minimum Non-Residential sewer charge must not be less than the residential charge of \$560.00 for 2020/21. Non-Residential properties that are deemed a low impact upon the sewerage system will be charged the minimum charge each quarter, as assessed and approved by Council officers. On application, Council will assess sewer access charges in circumstances where master and sub meters exist. This may include the removal and/or non-charging of a sewer access charge if considered appropriate based on assessment of the circumstances by the Council Officer.

Volume based and access charges are detailed below:

Name of Charge	Type of Service	Number of Services*	Charge Amount^	Yield
Residential Properties	Sewerage Services	26,052	\$560.00	\$14,589,120

## Oasis Regional Aquatic Centre

While Oasis fees have been set based on competitive market rates, and also on maximising visitation to the centres, from time to time a reduced pricing point may be offered up to a maximum of 50% of the approved price, and advertised to support a promotion aimed at increasing participation and / or attracting new customers. Where temperatures are forecast to reach 41 degrees Celsius and above according to the Bureau of Meteorology on the prior day, this reduced pricing point for admission fees will increase to 100%. A reduced pricing point will require Management Approval. A 100% discount of Fees and Charges for Community Events and Charities may apply with prior approval by Management.

A discounted promotional pricing point will be offered for a specified period of time only and all promotional conditions will be advertised.
