RE: Response to Tarcutta Parking Bay Petition

To Whom It May Concern,

I am writing this letter in regards to the recent petition, submitted to the WWCC on behalf of some Tarcutta residents. The petition was in regards to the parking bay located between Sydney Street and the Old Hume Highway directly in front of the Police Station house. The petition was to remove parking between 10pm and 6am at the site.

This petition was discussed at the recent progress association meeting held on the 8th of April 2021. There was a unanimous decision within the progress association that the members are strictly against any changes to the current parking situation in the main street of Tarcutta.

As WWCC would be well aware, the community of Tarcutta is supported by 2 Industry's, a local farming community and the national transport industry. Given our towns location on a national freeway (half way between Sydney and Melbourne) and transport services (our truck parking bays and major Service Centre), Tarcutta is a hub for Heavy Vehicle transport traffic and traveling public. The association firmly believes that if restrictions were put in place on the current permitted parking times within the Sydney Street Parking bay, the effects would have a reduction in business trading, and the result of this would be detrimental to the town's economy.

Sincerely,

Your Name
Secretary, Tarcutta and District Progress Association
