COMMENTS ON PROPOSED ROAD CLOSURES

(whether physical or otherwise).

Dear Sir/Madam

I/We, [REDACTED]

wish to provide my/our opinion in relation to the proposed road closures.

I/We:

1. Are in favour of the road closure
- OR
2. Object to closure of the following roads for the reasons noted below.

Why do you say in the penultimate paragraph of your letter of 6 May, 2020 that "Wagga Wagga City Council will consider all duly made submissions and decide on road closure suitability"? Council understands as well as we do, that NSW Health decides on the outcome of all roads in their precinct and Council has no input at all. The hospital development was undertaken with no input from Council, as you know. This entire process is a waste of paper, time and rate-payers' money and represents little more than 'chest-beating' by Council.
